MARYVILLE, MISSOURI, MONDAY, JUNE 23, 1913.

NO. 17.

GOD PLANNED ALL

STARTED CO-OPERATIVE MOVEMENT BEFORE MAN WAS.

MADE IT A STORE HOUSE

World Was Provided for the Use of the Partners in the Divine-Human Partnership.

This sermon of Rev. S. D. Harkness, delivered Sunday, sets forth the right attitude of man toward God and religion.

"For we are laborers together with God"—I Cor. 3:9.

I listened to a speech recently that was plentifully sprinkled with bromides. One of them was, "This is the age of co-operation." We emphasize co-operation as an earmark of the twentieth century, and we might as well talk about "the Mississippi river of Louisiana." As the father of waters neighbors with half the states in the Union, even so co-operation has flowed from the eternal purposes of God down through all the centuries into the sunny clime of our modern civilization. "Enoch walked with God" thousands of years before Paul referred to our being laborers together with God. But we are in debt to Paul for the clear and terse way in which he visions the component elements of co-operation. We must not put a twentieth century label on it, nor leave God out of it. All the "get-together" movements are by-products of and owe their inspiration to divine-human co-operation. God, the laborer and man the fellow laborer, putting infinite and finite hands upon the same task for the achievement of one purpose.

Consider how God has made this old world a veritable storehouse for His partners. He hid all manner of precious ore in the earth that man might leave the stone age far behind. He clothed the mountain sides with the forests ages before the blow of ax or shriek of mill saw was heard. And when the trees waxed old and fell, the Divine Economist said, "Bury the fragments, that nothing be lost," and the coal fields were ready for the miner's pick. He sowed the wild grain and planted vine and fruit tree, and then He put the cattle upon a thousand hills. And today men are building cities, bridges, engines and skyscrapers from God's ore beds. They are driving the trains across the continents and ships across the seas with the fuel He saved up for them when the Garden of Eden had not been inhabited. And the fields are waving with ripening grain. The growing clusters are under the magic of the sun, and the laden branches hold sweet prophecy for the future pilgrim. Telling through the years, God's human partners have evolved the ocean greyhound from the scooped out log. The savage hitched his ox and wife together and plied both with impartial lash, but today husband and wife travel in the Pullman and touring car. Once the grape was small and sour, but by centuries of culture the co-worker with God has produced the Concord. Once the cattle were little and scrawny, but by care and selective breeding they have produced the thoroughbred Jersey and Shorthorn. Once the tallow dip gave light to the student, but man found the key to the power God had locked in the flashing streams, and now the family gathers around the electric reading lamp. Oh, God is co-operating with the human race, with every throb of the engine and swing of the sickle. Every plowshare thrust in the furrow and pick driven in the vein of ore means business with God. The world is a great laboratory where God and man are working out the experiment of civilization.

Consider how God is co-operating with man in mental development. Remember that in the conjunction of two tiny germs, millions of which could rest upon a pin head, there are the mental traits, moral tendencies and facial resemblances of father and mother reproduced in a separate and entirely unique personality. That is God's work, baffling the greatest

physiologists, but when that babe responds to the mother's croon with the first smile, human co-operation with the divine has begun, and home life and school life and church life are carrying on the task with God until the man or woman stands forth ready to become a co-worker with God.

Science is not antagonistic to God; it is thinking His thoughts after Him. The church staggered when evolution was advanced by science. The statement that Moses did not mean that the earth and all that in it is was formed in six days of twenty-four hours duration was regarded as blasphemy, but when incontrovertible proofs were offered in behalf of science's stand on evolution, then we learned the unutterable glory and majesty of an unfolding creation throughout aeons of time, and saw how absurd the conception of a creation by time-clock had been. The scientist today is verifying the accuracy of Moses, and coloring our interpretation of the truth with vastly more common sense.

There is a beautiful divine-human co-operation in art. God furnishes the material. Man weaves it and there is the canvas. God sets the scene; gives beauty to the face, and man immortalizes the vision. In the July American there are eight wonderful photographs of the Grand Canyon. They were made because two young men traveled 1,500 miles through the canyon, descending 6,000 feet. Only four times has the journey been successfully accomplished, and yet those multi-colored cliffs have waited for the artists to reproduce and display their beauty since before God made man in His own image.

Ignorance may say in its heart there is no God, but science, philosophy, art, poetry, and music are traveling that path which shineth more and more upon the perfect day.

And now I come to that divine-human co-operation which is big with destiny—co-operation in the building of character. His co-operation makes possible for us three things—to do, to know, to be. To do is temporary. For the thing we do today will be better done tomorrow. A civilization is the cocoon from which a more beautiful and active people emerge. History is like a dozen cocoons any boy may find in the crevices of a stone wall. To know God is limited, therefore we can only know in part. If we can propagate the Gospel on the meager conception of truth we now possess, what shall we do when He has led us until all truth. But when God co-operates with us to be, a fine, straight road stretches out before us. The road is character. "The light of the knowledge of the glory of God in the face of Jesus," and "if we walk in the light as He is in the light the blood of Jesus Christ, His Son, cleanseth us from all sin." And when a man gets character he has been working with God to a mighty end. Take character out of society and you have a carnival of lust and crime. Take character out of this American nation and your stars and stripes would stand for no more than any three color rag. Take character out of man's heart and mind, and "Dragons wallowing in their slime" were mellow music matched to man.

But no, God has been putting in and adding to character. Out of stupid savagery have marched free and enlightened peoples arrayed in government. God has not ceased to give "beauty for ashes," but he has asked for co-operative achievement all along the way. He gave ore and said, "Dig, melt and build." He gave mind and said, "Get wisdom." He gave instinct for faith and said, "Fling your rainbow bridge across the black chasm of doubt to the parapets of the Holy City." He gave Christ and said, "Live up to Him." And it is better so. We have common cause with God.

There is no finer opportunity for divine-human co-operation than that afforded by the church of Christ. Nolan Rice Rest, in the Continent, asks: "Can one be a Christian without joining the church?" And answers, "Yes, to be sure, but what's the use of being that kind of a Christian?" If I am to fight the battles of my country I will not get a gun and go on an individualistic campaign. If I am to be a fellow laborer with God, I must join His church, getting and giving power to the task. God's church moves when men supply momentum. We are laboring together with God to crush wrong, and to lift men to Christ. We are laboring together with God to hold unperilled a world's destiny; to thrill a nation's constitution with character; to inflame the people with a fine hatred of sin, and a splendid passion for social and personal righteousness. All creeds converge here! This is divine-human co-operation, sung by the angels in Bethlehem's silvery night; held up to the world upon the Saviour's cross to stir in us brotherhood among men and kinship with God.

BEN WRIGHT DEAD

DEATH RESULT OF POISON TAKEN AT FRIEND'S HOUSE.

TO BE BROUGHT HERE

Former Well Known Maryville Man Will Be Buried in Local Cemetery—Death Came Monday.

Word was received in Maryville Monday afternoon at 2 o'clock of the death of W. Ben Wright, formerly of Maryville, at the General hospital in Kansas City.

Mr. W. A. Blagg, a brother-in-law of the deceased, drove to Ravenwood Sunday night and took an early train to Kansas City in response to a message saying that Mr. Wright was very ill.

The Kansas City Journal of Monday contained the following account of the attempt at suicide on Sunday evening by Mr. Wright, but the relatives here have not been advised as to the truth of the statement:

A quantity of bi-chloride of mercury, taken at 1:15 o'clock yesterday afternoon at 4518 Garfield avenue by Benjamin Wright, 30 years old, probably will result in his death, according to physicians at the General hospital.

Wright is a barber and has relatives in Maryville, Mo. He has lived both there and in Kansas City. He went to the home of W. T. Bevens, at the address given, and after chatting some minutes with Bevens and the latter's father and mother, asked for a tumbler of water.

"I want to take some medicine," he explained.

When the glass was handed him, Wright emptied the poison into the water and drank the contents. He then told his friends that he wanted to die and that he had swallowed bi-chloride of mercury.

Emergency treatment was given Wright and he was taken to the General hospital but there is little chance that he will recover.

The body will be brought to Maryville Tuesday noon for burial. The deceased is survived by his mother, Mrs. S. E. Wright of Maryville, and three sisters and two brothers Mrs. Andrew Howden of Skidmore, Mrs. W. A. Blagg of Maryville, Mrs. A. D. Leighty, Perry and Ed Wright of St. Joseph.

D. R. EVERSOLE MAKES PURCHASE

Building North of Present Store Site Acquired by Dry Goods Merchant Thursday.

D. R. Eversole last Thursday purchased the Orear building, the building adjoining his store on the north and now occupied by the Orear-Henry Drug Co., for a consideration of \$13,500. Miss Lou Garrett of Maryville and her sister, Mrs. Harry Foster of Charlton, Ia., were the owners.

This is one of the most important business transactions that has taken place in Maryville for some time. Mr. Eversole says that he has made no definite plans as to the use to which he will put the building, but the supposition is that he will remodel it for his own use. This would make the Eversole store one of the most complete in town, adding value to his own business and the business interests of the city.

HANNA FUNERAL MONDAY.

Father Arrived Monday Noon From Nevada With Body of Son.

James Hanna of Pickering arrived home Monday noon with the body of his son, Raymond Hanna, who died Sunday evening, June 15, at Goldfield, Nevada, of pneumonia. Mr. Hanna left for Nevada as soon as the news came of his son's death.

The funeral services were held Monday afternoon at the home of the parents, near Pickering, the Masonic lodge having charge of the services.

Mrs. Delmar Strong and daughter, Lucile, of Maryville; Miss Beulah Thompson of Guilford, a cousin of the deceased young man, who is attending the Normal; Mrs. E. W. Greene and daughter, Mrs. R. W. Harrison of Stanberry, went to Pickering Monday noon to attend the funeral.

A Correction.

The hour for the parties to be given Thursday and Friday mornings by Mrs. Rankin Lyle and Mrs. S. R. Beech and Mrs. S. L. Beech, was omitted by mistake from the invitations. Both will be given in the morning at 9 o'clock, and there will be no afternoon parties.

Miss Nelle Hudson and Miss Phyllis Saylor will leave Wednesday on a trip to Colorado.

APPLES SUFFERED

BIG DECLINE IN CROP PROSPECTS FROM MAY REPORT.

SOUTH HIT THE WORST

Horticultural Board Issues Monthly Report Showing Bad Condition of the Apple Crop of the State.

The condition of the growing fruit crop shows a striking difference from that of the May report. Damage due to "fire blight" has been heavier than ever known in Missouri fruit growing, and its toll will probably prove to be as heavy as that of the average dreaded "spring frost."

This disease is caused by bacteria working in the young wood of the tree. This bacteria has no doubt been present in an inactive condition in practically all orchards of Missouri for a number of years. The conditions were unusually favorable for its attack this spring, and the known treatment effective in controlling this disease, other than cutting out the dead limbs below the place of infection; however, it should be borne in mind that the reoccurrence of conditions precisely similar to those of this spring and last winter must occur before there will again be, in years to come, a similar spread of the blight damage. This is most improbable.

The season for peaches has been most favorable, there being no material change from the May report of 85 per cent of a full crop. The strawberry yield has been cut in one-half by excessive dry weather; and other small fruits will suffer to about the same extent. The following is a summary of the crop conditions in the different parts of the state:

	Northwest.		Northeast.		Central.		Southwest.		Southeast.	
	May.	June.	May.	June.	May.	June.	May.	June.	May.	June.
Ben Davis.....	73	43	68	60	61	20	43	13	29	31
Jonathan.....	82	59	87	61	91	23	80	46	69	33
Peaches.....	85	62	94	76	83	70	87	87	78	78

The loss during May is mainly due to "fire blight."

The fruit growers of Missouri are asked to give this special attention.

The Missouri state board of horticulture will take a careful estimate, by trained men, of the growing apple crop in August of this year. The estimate will be taken by men who will visit virtually all of the orchards in the state, and will be the most extensive effort so far made to gather a crop report in this country. The board of horticulture wishes to make use of this opportunity to test the value of the board's service in helping the grower find a buyer for his fruit. These estimates will place absolute figures of the probable size of the apple crop, in the hand of the board of horticulture; and this will obtain, among other things, the lessening of the possibility of the apple buyers' inducing the grower to sell at a low price by convincing him that there is an "immense" crop, etc.

Growers are urged to write to John Bland, secretary of the Missouri state board of horticulture, Columbia, for names of buyers.

PROMINENT BANKER HERE.

J. W. Perry and Family of Kansas City Were Guests of Mr. and Mrs. Sherman Shinabargar.

J. W. Perry, president of the National Bank of Commerce, of Kansas City, Mrs. Perry and daughters, Pauline and Virginia arrived in Maryville Saturday night in a touring car. They were the guests of Mr. and Mrs. Sherman Shinabargar while in town.

Sunday afternoon they, together with Mr. and Mrs. Shinabargar, drove to Tarkio to visit with W. F. Rankin and other friends whom Mrs. Perry knew as a girl. They all had dinner in the hotel Sunday evening.

Last night the Perrys and Shinabargar returned to Maryville, and this morning the Perrys left for Kansas City by way of Graham, Maitland, Fillmore and Mound City.

Mr. Perry was raised in Nodaway county and was a boyhood friend of Mr. Shinabargar. While here he renewed many old acquaintances and made a visit to the BeHows farm to see the Bellows herd of cattle.

Presbyterians Will Picnic.

The members of the Presbyterian church will hold their annual basket dinner and picnic Tuesday at the Watson farm, west of Maryville. Hayracks and autos will leave the church at 9:30 in the morning to take them to the farm. A feature of the picnic will be a ball game between the Sunday school team and the married men.

DEATH OF MRS. S. J. BUTCHER.

Former Maryville Resident Died Last Week at Sister's Home in Nebraska.

Last week's issue of the News at Ravenna, Neb., contained account of the death of Mrs. Clara A. Butcher, wife of the late S. J. Butcher, who was for several years a boot and shoe dealer of Maryville, also in the clothing business.

Mrs. Butcher committed suicide three years ago in a hotel in New York City. Mrs. Butcher and their son, Byron Butcher, were in Palo Alto, Cal., at the time, where the young man was attending Leland Stanford university and was graduated from that institution soon after his father's death. He is now in the journalistic world and is connected with the Daily Dispatch at Douglas, Ariz.

Mrs. Butcher's death occurred Tuesday, June 17, after a long and painful illness, at the home of her sister, the wife of Dr. J. H. Penn of Ravenna, Neb., where the funeral services were held Wednesday afternoon, burial taking place in the family burying ground at Ravenna. Mrs. Butcher's son was with her for several weeks before her death. She was a member of the Episcopal church and of the Order of the Eastern Star.

Mrs. Butcher was born in Valparaiso, Ind., June 10, 1861, and was 52 years of age at the time of her death. The greater part of her life was spent at Burlington Junction, Mo., where she was married in 1882 to Samuel J. Butcher, who was in the mercantile business there.

Made Address in Mound City.

President Ira Richardson was in Mound City Saturday, where he delivered the address at a rural commencement exercise.

Miss Carrie Newcomer returned to her home in Guilford Sunday evening to remain for the summer.

ALL STARS WON GAME.

Eighteen Auto Loads of Rooters Saw Shylock Wilson and Eight Helpers Defeat Hopkins.

The Maryville All-Stars base ball team went to Hopkins Sunday and, in a fast game, defeated the Hopkins team by a 3 to 1 score. Eighteen auto loads of rooters went from here to see the game.

"Shylock" Wilson, who pitched for Maryville, let the Hopkins boys pound out long flies and fast grounders, but the outfielders caught all their chances and Adams and Simmons, at third base and short, made their territory airtight. Wilson struck out twelve men, and the Hopkins pitcher about the same number. Only two errors were made during the whole game, one by each side.

A large crowd from all around Hopkins came to see the game, and the gate receipts amounted to \$87.50.

Hopkins will play a return game here the Fourth, and everybody in Hopkins says he is coming down.

The players on the All-Star team were: Clark, catcher; Wilson, pitcher; Simmons, shortstop; Ham, first base; Scott, second; Adams, third; Alley, left field; Fisher, center field; Cummins, right field.

The Trenton team has asked for a date with the All-Stars, preferably next Sunday.

BROKE INTO JAIL.

Ex-Maryvillian Wandered in Kansas City "Cooler" Looking for Desk Clerk.

The Sunday Kansas City Star has the following account of the accidental incarceration of J. T. Oyler, a printer recently in the employ of The Democrat-Forum:

John T. Oyler, who lives at 917 Campbell street, surprised himself and the police department as well by finding himself in the city holdover at police headquarters at 10:15 o'clock last night. Oyler went to headquarters to inform the police that his house had been broken into and robbed of \$20. By the time he reached the city hall he had lost his bearings and he got into the municipal court room by mistake. The door into the holdover from the court room was left open last night for ventilation, and Oyler wandered into the "cooler" looking for the desk clerk. The jailer came in and counted noses and found one too many, and he dragged Oyler out and demanded an explanation of the intrusion. Oyler's account was very vague and disconnected, and after a tedious investigation he was released.

MOUND CITY NEXT

GETS 1914 CONVENTION OF CHRISTIAN ENDEAVORERS.

H. J. BECKER, PRESIDENT

Local Man to Guide Destinies of Society—First Christian Church Wins the Banner.

H. J. Becker of this city was elected president of the second district of the Missouri Christian Endeavor Union at the business meeting of the convention Saturday afternoon. The other officers are: Vice president, J. R. Albright of St. Joseph; secretary, Meritt Meyer of St. Joseph, re-elected; treasurer, W. H. Ferguson of Mound City. These officers were installed Sunday afternoon by the retiring president, H. B. Richardson of Hamilton, and took their offices at the closing meeting of the convention Sunday evening. The convention was adjourned to meet next year in Mound City. The date has not been set.

A joint meeting of the Christian Endeavor societies of the Christian and Presbyterian churches was held in the Christian church last night from 7 to 8 o'clock. It was followed by an excellent address by Rev. John W. Love of Burlington Junction. At both services special music was given. Mrs. Fred Robinson and H. J. Becker sang a duet at the Christian Endeavor meeting. The combined choirs of the Presbyterian and Christian churches sang an anthem and Mr. Becker gave a solo at the church service.

The Christian Endeavor society of the Maryville Christian church was awarded the banner for the best organized and strongest society of the year. This shows excellent work on the part of the society in surpassing the societies of the larger cities. The banner will be sent next week to Los Angeles, Cal., to be placed on exhibition at the national convention in July. It will be placed in a booth with other banners and prizes as a mark of special mention for the good work done by these societies.

Mr. Becker said that the convention here was a very successful one and that all departments showed a growth in every way. About 100 delegates from the twelve counties in the district were present. They represented the societies of the Presbyterian, Christian, Congregational and Reformed churches.

Saturday evening was the social evening of the convention. At 6 o'clock a banquet was given to the new officers of the last three or four years. About eighteen were present. A reception to all the delegates was given after the address at 8 o'clock of the state president, Frank Lowe, Jr.

By an action of the convention Sunday night a new plan of sending delegates to the state convention was adopted. Instead of sending delegates from each society, the district officers will be sent at the expense of the societies in the district. In this way the executive committees will be present. The societies are then free to send any other delegates they choose. The next meeting of the state convention will be held in Kirksville the latter part of next October and the first part of November. Mr. Becker will attend that meeting.

ARE IMPROVING ROAD.

Farmers on Wamsley Road Have First Class Scheme for Securing County Seat Highway to Savannah.

The farmers living along the road from the five-mile corner south of Maryville, then east and then south, better known as the Wamsley road, are busy at work fixing up their road to meet the requirements laid down by the state highway engineer. The people along this road want the Maryville-Savannah highway to go by them and are sparing no expense or time and are busily working. On Saturday there were a dozen men working on this stretch. They are making the road wider, have set the fence around the corner back, so as to have a good corner to go around, and they are cutting the hedge and making ditches at the sides of the road. Much work has been done on the road, especially in the way of dragging it.

MASHING.

Mashing is getting to be a serious thing in Maryville. Almost every night women and girls are insulted on our downtown streets. Saturday evening two men were arrested for this. Why? Because the husbands of the women were nearby and interfered. Ordinarily the women have to rely on their own efforts to get rid of the mashers.

This ought not to be. If the public would wake up from its apparent disregard of such conditions something could be done to stop this disgraceful practice. With public sentiment behind them the officers could soon put a stop to it.

This practice of mashing is encouraged somewhat by the number of young girls on the streets who have no business to be there alone. They are unable to protect themselves, and often do not realize their danger. However, the conditions do not apply to them only. Many women are afraid to go through town alone because of the actions of the loafers on the streets.

All this will sooner or later, if it has not already done so, give our city a bad reputation. We ought to take a personal interest in preventing this. Maryville is not yet so large but that her streets ought to be a perfectly safe place for anyone at anytime, and they can and should be made so.

Marriage Licenses.

Recorder Wray issued licenses Saturday to Harry H. Lyle and Mabel G. Mason, both of Maryville, and to James Conklin, Jr., of Maryville and Lizzie M. Wilson of Elmo.

Mrs. William Farnan and Miss Mary Farnan, of Clyde, were among the shoppers in Maryville Saturday.

TWIN BROTHERS GRADUATED.

Martien and Morrell Cook Finish the University Model School at Grand Forks, N. D.

G. B. Holmes, Jr., received announcement Saturday of the graduation of Martien and Morrell Cook from the University Model high school at Grand Forks, N. D., on June 14. The young men are the twin sons of Rev. Dr. and Mrs. Homer Martien Cook of Grand Forks, formerly of Maryville. They are now 16 years old and will enter the state university at Grand Forks this fall. Martien Cook carried off five first and one second prize in the athletic events of the high school track meet in April. He has grown to be a young giant in strength and build. His brother, although much smaller, is quite an athlete, and stood a good chance to win in a mile race that his brother won, but he became so excited when his brother ran past him and others who were running close together that he forgot himself and stopped and cheered with the fans, losing his place in the race.

MUD DELAYED TRIP.

Party for Kansas City Forced by Mud- dy Roads to Spend Night at Dearborn—Will Return Tuesday.

A party composed of E. E. Williams, F. P. Reuillard, Dr. Frank C. Wallis and James Todd left Saturday afternoon for Kansas City in Mr. Williams' Hudson "Six." They encountered mud from Wyeth on into St. Joseph, and again encountered mud from Dearborn on into Smithville. They spent the night Saturday at Dearborn and arrived in Kansas City Sunday morning at 11:30. They will make the trip back on Tuesday.

LEFT FOR MINNESOTA.

Judge Ellison to Spend Vacation Fishing in the North With Friends.

Judge W. C. Ellison left Sunday evening for a two or three weeks' fishing trip in Minnesota. He went to Ravenwood by auto, where he met Judge A. W. Kelso and Colonel Sale of Grant City, and they took the Great Western for St. Paul.

In St. Paul they will meet a friend of Judge Kelso, who will pilot them to a lake where there are really some fish.

Will Be In to See You.

Marion Smith is the authorized subscription agent for the Democrat-Forum and expects to make every part of the county this year the same as he has in the past. There is no truth in the report circulated that he was no longer in our employment. As Mr. Smith makes his living by the commissions on subscriptions received by him as our agent these reports are very damaging to him. Mr. Smith also receives subscriptions for various metropolitan papers, including the St. Joseph Gazette, the Kansas Star and Times, Kansas City Post, St. Louis papers, Chicago papers, farm papers and magazines.

THE IMPERATOR.

Biggest Steamship In the World and Her Executive. Brave Captain Hans Ruser.

Photo by American Press Association.

The newest monarch of the seas, which has arrived in New York on her maiden trip, is 812 feet long. She is the first of the big German turbine ships. She has a double hull and is believed to be unsinkable. She carries a crew of more than 500 men. Her commander, Captain Ruser, is a veteran navigator and has been nicknamed "the Brave" because of his heroism in many thrilling experiences.

News of Society and Womens' Clubs

Meeting Tuesday Night.

The Eastern Star will meet in regular business session Tuesday night.

The Hour Was Omitted.

Nine o'clock is the hour for each of the parties to be given Thursday and Friday by Mrs. Rankin Lyle, Mrs. Scribner Beech, Sr., and Mrs. Scribner Beech, Jr. The hour was omitted by mistake upon the invitations.

Saturday Evening Dinner.

Mr. and Mrs. F. J. Yeomans, 206 South Main street, entertained at 6 o'clock dinner Saturday evening, their guests including Mr. and Mrs. George Demott and children, John Allen, Lulu Belle and Jessie Fay, and Mrs. N. F. Humber.

Married Twenty Years.

Mr. and Mrs. Will A. Burris of near Graham celebrated their twentieth wedding anniversary Sunday, in an informal way, having for dinner guests Mr. and Mrs. R. B. Gex, R. B. Gex, Jr., Miss Bettie Gex, Rev. Yeager of Warsaw, Ky., Rev. Spauldower of the Palestine church, and Harry Holmes of Maryville.

Surprise Dinner Sunday.

Mr. and Mrs. Lawrence Lynch, living just south of Maryville, were given a surprise dinner Sunday by relatives and friends, who came at noon with baskets of good things and spread a fine dinner on their lawn. Those present were Mr. and Mrs. John Lynch, Mr. and Mrs. Charles Henson and children, Mr. and Mrs. J. P. Norris and children, Mr. and Mrs. Frank Lynch, Mr. and Mrs. Henry Shinnall, Miss Zelma Shinnall, Mr. and Mrs. Noble Norris and children, Mr. and Mrs. Charles Dane and son, Mr. and Mrs. Eli Dane, Mr. and Mrs. Dean Norris and daughter, and Lester and James Lynch, sons of the host and hostess.

Luncheon for Tea Cups Club.

Mrs. James B. Robinson gave a one o'clock luncheon Monday afternoon, her guests including the members of Over the Tea Cups club and a few other friends. The visitors were Mrs. F. G. Honnold of Chicago, the guest of Mrs. M. J. Honnold and Mrs. George P. Bellows; Mrs. W. T. Graham of Des Moines, Iowa, the guest of Mrs. G. H. Colbert; Mrs. C. T. Bell and Mrs. F. P. Robinson. The members of the club are Mrs. George P. Bellows, Mrs. C. C. Corwin, Mrs. G. H. Colbert, Mrs. J. F. Colby, Mrs. S. G. Gillam, Mrs. O. C. Hanna, Mrs. Charles Jackson, Mrs. Victor I. Moore, Mrs. G. L. Wilfley, Mrs. W. A. Rickenbrode and the hostess.

Surprised on Birthday.

Miss Myra Hull, daughter of Mr. and Mrs. H. W. Hull, living north of Maryville, was surprised by a number of friends Sunday evening, who came as she was preparing to go to the meeting of the B. Y. P. U. Her guests would not let her go, however, because they said birthdays did not come but once a year, and no one in that neighborhood is allowed to have a birthday without getting noticed. Miss Hull was as much surprised that the date of her birthday anniversary was known as she was at the coming of her friends. The evening was spent in gospel song singing and eating the ice cream and cake the guests brought with them. Those present were Mr. and Mrs. W. O. Garrett, Gertrude Garrett, Mildred and Pauline Eckert, Mr. and Mrs. Halbert Catterton and children, and Mr. and Mrs. M. D. Kemp.

No Picnic Tomorrow.

The M. I. Circle has postponed its annual picnic, which was to have been held Tuesday afternoon, indefinitely. The year book committee for the coming year's study has assembled a splendid miscellaneous program for the coming year, and it will soon be printed. The Circle is looking forward to a profitable year under the leadership of Mrs. W. O. Garrett, the new president. Its best year so far has just closed under the leadership of Mrs. W. B. Christy, who was complimented at the end of her year as president by being asked to serve the Circle again as president, the Circle having voted to lay aside its rule not to re-elect any officer. Mrs. Christy is a most competent parliamentarian, and her work along that line was especially appreciated. The year book committee members for the coming year's study are Mrs. W. A. Bailey, president; Mrs. W. A. Blagg, Mrs. Charles McNeal and Mrs. T. H. Cook.

Surprised Mr. Kemp.

When Mr. S. H. Kemp arrived home Friday evening he found a company of friends other than his family gathered on the porch to welcome him some and extend congratulations and good wishes to him on his birthday anniversary, which he had well nigh forgotten in the rush of business duties. Owing to the rain, the supper prepared to be served on the lawn, was served in buffet style on the porches. During

REDUCTION SALE OF Hardware

WE want to reduce our stock of Hardware, Buggies, Implements, Dishes and Glassware to a point where it can be handled by a prospective buyer. That means that we must dispose of about \$5000 worth of the cream of our stock, and we are going to take just ten days to do it. In this busy season only bargain prices will have any effect on the farmer's, so we'll make the prices right off the bat. Its too long a story of course to give them all, but how's this as an indication?

Implements

Whatever we have
when you come at cost

Velie Buggies

\$65 to \$75

Dishes and
Glassware
at 33 1/3 off.

You get the pick out of a \$13,000 stock, and there's nothing reserved. Everything is reduced to a stock-moving price and you choose your own bargains. It's a money-making chance for you. Don't miss it.

Sale Begins Wednesday, June 25, 7 a. m.

Bolckow Hardware Co.

Formerly Dodds & Patterson
Bolckow, Mo.

Can You Work It

If a 2-6x6 screen door will keep out 1,000,000 flies in one year at a cost of 90c, how many flies will a 2-8x6-8 door keep out? and how long can you afford to be without screens; figuring cost of a 2-8 door at \$1.00, your health at \$1.00 a minute, and wall paper at 20c a roll?

Just excuse me a minute while you're looking for your "specks and pencil"; I will sell this "waiting customer" one of our "fancy" screen doors.

WILSON TALKS TO CONGRESS

President Urges Early Action Upon Money Legislation.

BRYAN GIVES HIS O. K. TO BILL

Secretary of State Says Currency Measure Gives Needed Relief—Business Men, He Thinks, Will Welcome Act—People in Entire Control.

Washington, June 23.—The president of the United States went to congress again today to deliver the second message of his administration. Congress met in joint session in the chamber of the house to hear his message on currency legislation.

President Wilson arrived at 1 o'clock and, after being presented by Speaker Clark, delivered his message urging currency legislation before the close of the special session.

Secretary Bryan issued a statement on the currency bill prepared by Chairman Glass and Owen of the congressional banking and currency committee, Secretary of the Treasury McAdoo and the president.

Bryan O. K.'s Bill.
Secretary Bryan gave his "unreserved" indorsement to the proposed measure and removed all doubt as to his position with reference to currency reform, the ideas of President Wilson and the necessity for immediate action.

"I am glad to indorse most earnestly and unreservedly the currency bill which has been prepared by the chairman of the two congressional committees, in conjunction with the president and Mr. McAdoo," said Mr. Bryan. "It is a much better bill than I supposed it to be."

"The plan which the president now urges confer great advantages upon the banks, while it preserves to the people, acting through the government, all that is essential for the protection of the public."

"The notes are not to be treasury notes issued by the government and loaned to the regional reserve banks. This is in harmony with the Democratic contention. There is no surrender of the government's right to issue money. The board of control is appointed by the president. Thus the people, acting through the government, are in entire control."

"The great point of advantage to the banks—an advantage that ought to make them willing to accept the bill without question—is that it furnishes a currency which they can secure in time of need without having to put up bonds as security. The bond requirement largely neutralizes the advantage of the money issued on them as security, because the banks cannot draw back more from the government than they have already invested in the bonds, but where a bank can put up its good assets it is able at all times, without sacrifice, to secure any additional circulation that the community may need and the governing board can be trusted to issue its treasury notes to the regional reserve banks on terms that will be fair and just."

Welcomed by Business.
"The business interests, I think, will welcome this bill as an unalloyed blessing. It gives them, through their banks, a promise of relief in any time of stringency, and it gives this promise without putting in the hands of the banks a power that might be used against the public. The bill is a faithful fulfillment of the promises made in the Baltimore platform. I feel sure that the Democrats of the senate and house will rally to the support of the bill and I am sanguine enough to believe that it will receive a cordial support from Republicans as well."

SEVEN DIE IN WRECK

Victims Believed Beating Way in Empty Freight Car.

Clinton, Ia., June 23.—Seven men were killed and another probably fatally injured in the wreck of a freight train on the Milwaukee near here. The freight train, speeding down a four-mile hill between Delmar and Downs' station, crashed head-on into a gravel train two miles east of Delmar at noon. Both engines were wrecked and twenty-eight cars were piled on the demolished gravel train.

The wrecking crews worked six hours clearing their way to the car in which the bodies were found. The victims have not been identified and are believed to have been beating their way in an empty freight car.

SURVEY BOAT CAPSIZES

Nine Government Employees Drowned as Vessel Overturns.

New Madrid, Mo., June 23.—Nine members of a party of fourteen United States engineers and other government employees were drowned near New Madrid, Mo., when the United States survey boat Beaver, which the party was aboard, was capsized in a storm.

Those drowned are: C. S. Williamson, chief engineer, Mason, O.; J. M. McConnell of Memphis, Captain Lamb pilot; A. D. Coston, engineer; Harry Sherrell, mate, Cottonwood, Tenn.; Phil Wray of Jackson, Tenn.; Free man, deckhand; two rodmen, names not known.

BLUE AND GRAY GO TO GETTYSBURG

Tented City Rises on Hills and Hollows of Battlefield.

JUBILEE REUNION IN SIGHT.

Men Who Are Gathering Will Bivouac on the Same Grounds Where Once They Shed the Blood of One Another—One Flag Emblem of All.

Gettysburg, Pa., June 23.—The hills of Gettysburg, where the armies of Meade and Lee pitched their tents fifty years ago, are flecked with canvas harbingers of the tented city which will soon arise on the battlefield. The army of civil war veterans from the north and the south—40,000 of them—are coming, some few in thread-worn uniforms and all without their muskets, to hold a jubilee reunion on the fiftieth anniversary of the battle. Some of the scouts are already here; the advance guard will bivouac on the field within a week; the rank and file will follow them not more than forty-eight hours later.

Every star of the forty-eight in the American flag is expected to have here its own quota of veterans. They will come as the guests of the national government, and of their respective state and territories, which jointly will spend more than a million dollars for their entertainment and comfort. To receive them the government and the state of Pennsylvania have made elaborate plans. One detail alone provides for furnishing the veterans more than 800,000 meals.

Pennsylvania has appropriated \$415,000 as its share of the expense. Congress has appropriated \$150,000 to defray the expense of the government's participation, and named a commission to help carry out the plans. Every state and territory also accepted the general invitation to participate and nearly all of them appropriated money to transport veterans and commissions.

Great Camp Ready.
The big camp is pitched on that part of the battlefield which lies southwest of Gettysburg. On nearly 300 acres of contiguous ground 7,000 tents and more are going up under the supervision of the war department. The camp lies partly on the scene of the first day's fighting and is not far from High Water Mark, where Pickett's famous charge shattered against the union lines.

Five thousand tents have been erected for the exclusive use of the veterans. The camp has been laid out like a city. Each street and each tent has a number, so it will be easy for any veteran to look up a former comrade or foe. In the center of the camp will be the headquarters of the chief quartermaster. The veterans will be encamped according to states.

The principal events of the celebration will be held on July 1, 2, 3 and 4, but in order to avoid congestion of traffic on the railroads and confusion at Gettysburg, the camp will be opened on Sunday evening, June 29, the first meal to be served at supper time. Twenty meals will be served to each veteran during the week if he is in camp that long and the camp will come to an end after breakfast on Sunday, June 6.

M'NAB'S RESIGNATION WILL BE ACCEPTED

This is Only Statement Made From White House.

Washington, June 23.—The resignation of United States Attorney John L. McNab of San Francisco, wired to President Wilson with sensational charges that Attorney General McReynolds had directed delays which threatened to defeat justice in certain criminal prosecutions, will be accepted promptly.

That was the only information from the White House on the situation. The cases are those of Maury L. Diggs and Drew C. Caminetti of San Francisco, indicted under the white slave law, and of the Western Fuel company, indicted for conspiracy to defraud the customs. Caminetti is a son of Anthony Caminetti, recently appointed commissioner general of immigration. McNab, a Republican, holding over from the last administration, charged that "rich and powerful" influences were working to defeat the prosecution.

Secretary Wilson of the department of labor says the trial of the Diggs-Caminetti case was postponed at his request.

Good Old Summertime Is Promised.
Washington, June 23.—Real summer time weather during this week was promised over the country by the weather bureau. Temperatures above the seasonable were predicted for the great lakes region and the Pacific slope.

Four Firemen Killed.
Montreal, June 23.—Four firemen are dead and three others are in the hospital seriously injured as the result of a disastrous fire here. The fire destroyed a large sash and blind factory and an ice warehouse.

Attending Press Association.

Mr. and Mrs. J. F. Hull left Saturday evening for St. Louis, and on Monday will make the trip on the special train over the Missouri Pacific railway known as the Press association train for Pertle Springs, at Warrensburg, Mo., where the State Press association will be in session this week. The meeting will be confined to business and "talking shop" every morning, and the afternoons and evenings to fishing, bathing and other sports.

DANGER IN DELAY.

Kidney Diseases Are Too Dangerous For Maryville People to Neglect.

The great danger of kidney troubles is that they so often get a firm hold before the sufferer recognizes them. Health will be gradually undermined. Backache, headache, nervousness, lameness, soreness, lumbago, urinary troubles, dropsy, gravel and Bright's disease may follow as the kidneys get worse. Don't neglect your kidneys. Help the kidneys with Doan's Kidney Pills, which are so strongly recommended right here in Maryville.

Mrs. C. Howard, 702 East Third street, Maryville, Mo., says: "One of the family suffered from sharp pains through the small of the back, felt tired all the time, had dizzy spells and couldn't rest well at night. After Doan's Kidney Pills were used the pains went away and there was a great improvement in health."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.—Advertisement.

CLUB DIDN'T COME.

Muddy Roads Caused Motor Cycle to Abandon Run to Maryville Sunday.

The motor cycle club of St. Joseph was to have made a run to Maryville Sunday, but because of the muddy roads and indications of more rain the trip was abandoned. Thirty-five cycles were to have come, and reservations for dinner had been made at the hotel, but these were cancelled.

One St. Joseph motor cycle was in Maryville yesterday, but it was on its way to St. Joseph from Tarkio.

The St. Joseph club plans to make the run next Sunday if weather conditions permit.

Miss Ruth Keplar of Jamison arrived in Maryville Sunday night to resume her work at the State Normal.

CARTER GLASS.

Virginia Representative
Heads the Committee That
Framed New Currency Bill.

Next to the tariff the currency question is the biggest problem the present congress has been obliged to consider. Chairman Glass has pointed out that in the new currency bill the federal reserve board provision will put the government in absolute control over the whole financial system.

TWO BOYS DROWN IN WHIRLPOOL RAPIDS

Little Fellows Meet Death in Niagara's Cauldron.

Niagara Falls, June 23.—Donald Roscoe, ten years old, and Hubert Moore, nine years old, both of Buffalo, went to their death in a small boat in the Whirlpool rapids, while hundreds of men watched helpless from the shore. The boys were playing in a flatboat, half a mile above the rapids, when the rope holding the boat broke and they were carried out into the stream and went down the river. Up to the time the boat reached midstream it made little progress. After it passed the bridges the current carried it rapidly towards the rapids. The bridgemen did not see the boat until it was close at hand; then they called fire headquarters and two companies of firemen were sent to save the lads if possible.

Hundreds swarmed to the river banks in a vain effort at rescue. The boys, realizing their fate, stood up as the boat neared the edge of the roaring whirlpool and shook hands in farewell. A second later they were engulfed by a great wave in the rapids. The boat shot out of sight. One of the boys was seen for a moment struggling in the rushing waters and then disappeared. Neither body has been recovered.

CLARK POINTS TO EMIGRANTS

Says Country Is Losing Vast Sum Yearly in This Way.

Washington, June 23.—While committees of both houses of congress are preparing to press immigration reforms at the next session, Speaker Clark is giving attention to the other side of the question. Emigration, the speaker said in a statement, is costing the United States millions of dollars a year in actual money aside from the loss involved in giving up a real American to be replaced by a foreign immigrant.

"It is high time," said Mr. Clark, "that more attention be paid to the influence of emigration upon our future. The Americans who are leaving us understand our institutions, our ways and our aspirations, while most of the immigrants into this country have to be taught these things."

"In one week not long since 1,845 American farmers with \$388,500 in cash and \$145,000 in personal property crossed into western Canada to settle permanently in British North America. The principal reason they expatriated themselves is the lure of cheaper lands and less stringent land laws as to homesteading, etc."

"Congress should make our homestead conditions as easy as possible, compatible with safety, and should increase the area for home building by judicious encouragement of both irrigation and drainage."

BATTLE RESUMED AT ORTIZ

Bomb Dropped From Aeroplane Kills Fifty-two Men.

Douglas, Ariz., June 23.—An official message just received from Governor Posner stated that the battle of Ortiz had been resumed. The rebel war aeroplane, piloted by Didier Masson, the French aviator, did much execution among the federals, it is said. Posner asserted the Huerta commander was surrounded and could not get away unless he cut through the lines of the constitutionalists.

Masson, according to the message, dropped one bomb that killed fifty-two men. These and a hundred other federal dead, together with seventy rebel dead and severely wounded men, were brought to Hermosillo on a military train.

A Glimpse of the Real.

In the early morning, after the death of President McKinley had been flashed around the world, a newspaper man, weary with the labor of the night, took his way homeward. Since evening the bulletins had indicated the certain end. An entire nation was shocked and stunned, and in every capital of the world were expressions of sympathy and grief. Each click of the telegraph instruments was articulated with sorrow, while underneath this note was one of the indignation at the dastardly agent of murder who had conceived the deed. Here was a new force that was a portent, and men looked at the future with foreboding. One reporter had remarked, "If there is a God He has left this world to be ruled by chance and chaos."

Out of this turmoil the newspaper man went into the night. The hour was approaching the dawn, and there was silence over the city. The only sounds heard were the occasional shrill crow of a cock, the distant bark of a dog and a solitary hoofbeat echoing from some neighboring street. Men might be torn by grief and frenzy, but nature was unmoved. The ruler of a populous nation had fallen, but through all the excitement and change here were stability and peace. The great blocks of brick and mortar loomed the same as on yesterday. The distant mountains stood as they had stood for centuries.

Overhead the stars shone with an unwonted brightness. Low to the west was Orion, to the north lay the polar star and the bear, to the east was a brilliant planet, yellowing in the dawn, and arching across the zenith was the milky way, strewn like dust with the suns. All the numberless constellations stood exactly as they had stood at the birth of the first man.

There were worlds on worlds (systems on systems, till the mind was bewildered at their contemplation. The infinite spaces were populous with orbs. There were stars so distant that the light of the troubled earth dwindled to a point and disappeared trillions of miles short of them. Around these suns were innumerable other planets, peopled by other races, on which were enacted other tragedies.

On through the infinite silence swung the worlds, the suns and the systems, in perfect order and harmony. Outward to the limits of vision still outward through unthinkable distances marched the glittering companies, regiments and armies of worlds.

Before this sublime spectacle the worries of the world dwindled, its evers grew cool and the complaints of the human fell silent. The questioning of God became the babble of a child who does not understand. The talk of chaos was the discordant squeak of a mouse among the swelling harmony of the spheres.

The newspaper man had caught a glimpse of the real. Henceforth he decided that in some sort he would attempt to give the vision voice. He knew no better avenue than through his accustomed work, for the modern newspaper is supposed to stand, above all else, for real things.—James A. Edgerton.

Safe.

Little Mary was on the veranda in the morning sunshine when she saw a friend of the family approaching, and without waiting to be addressed she called, "Hello, Mr. Mason, I've had a birthday."

"Why, Mary, is that so? How old are you?"

"Four years old," she told him.

"I wonder, now, what I'd better do to you?" Mr. Mason pondered, and was amused at the reply that came very positively.

"You can't. I'm sitting on it."—July Woman's Home Companion.

THE GOLDEN AGE AT HAND.

Scriptural Evidences That Are Astonishing—No One Can Afford to Be Without the Knowledge.

We do our friends a valuable service when we call their attention to the valuable book entitled, "THE TIME IS AT HAND," in which are given many Scriptural evidences to prove where we are on the stream of time.

"Men's hearts are failing them for fear" and many of the leading thinkers are proposing remedies to better conditions. The Scriptures assure us that man's extremity will be God's opportunity, and this book holds out an anchor to those who fear the wave of unrest now spreading over the world.

The honest heart confesses that it is at a loss for an explanation of transpiring events. While we refer to this as the BRAIN AGE and the AGE OF ENLIGHTENMENT, nevertheless the less many realize that we are fast approaching a crisis which is wrapped in darkness owing to the present world-wide social, religious and political unrest.

Send 35 cents at once for the book, Bible and Tract Society, 17 Hicks Street, Brooklyn, N. Y.

THE ALBRIGHT FUNERAL.

Burial in Smith Cemetery, Near Skidmore—Was a Resident of County Fifty Years.

Funeral services for the late William Albright, whose death occurred Saturday noon at his home, near Skidmore, were held Monday morning at 10 o'clock at the home of his daughter, Mrs. J. D. Montgomery, near Skidmore, conducted by Rev. H. T. Polly, pastor of the Christian church. Burial took place in Smith cemetery. The pallbearers were Joseph and Ernest Montgomery, William Linville and Andrew Howden, Joseph Carden, William Freeze.

Mr. Albright was for over fifty years one of the most prominent and genial residents of Nodaway county. He was born in North Carolina, July 26, 1834.

He leaves eight children who are: Henry Albright of Maryville, Will Albright of Alexander, Neb.; Charles Albright of Los Angeles, Cal.; Mrs. Bettie Jones of Pickering, Mrs. J. S. Bilby of Quitman, Mrs. J. E. Pierpoint of Skidmore, Mrs. J. D. Montgomery of Skidmore and Mrs. A. T. Ford of near Skidmore. Mrs. Albright died twelve years ago. He also leaves five brothers and two sisters, who are: J. D. Albright of Mineral Wells, Texas; P. J. Albright of Wetmore, Kan.; George Albright of Washington, E. J. Albright and Ben Albright of Roosevelt, Okla.; Mrs. Josephine Headrick of Alexander, Neb., and Mrs. Tobitha Goslee of Skidmore.

DECORATING FOR FOURTH.

Professional Decorator Carrying \$5,000 Stock Makes Start Toward Getting City in Shape to Celebrate.

W. F. Starin, a professional decorator, arrived in Maryville Sunday night to see what he could do toward decorating the city for the Fourth of July celebration. He has already decorated the building in which Mark Turner has his business, and a number of other merchants are thinking of having him do their decorating.

The committee on decorations for the Fourth is considering having Mr. Starin decorate the streets. He carries a \$5,000 stock of goods with him and could make the street decorations very complete.

Two autos will leave Maryville Tuesday morning to cover the country north and south of town with advertising for the Fourth.

Fined For Disturbing Peace.

Robert McGinniss and Oba Hall were arrested Saturday night for disturbing the peace. McGinniss was also carrying concealed weapons. They gave bond for their appearance in police court Monday morning. Mayor Tobey tried the cases this morning and fined McGinniss \$24.50 on the two charges and Oba Hall \$8.45 for disturbing the peace.

Frank Spurgeon was also tried this morning for drunkenness Saturday night and was fined \$8.10. All fines were paid.

A marriage license was granted June 18 to Delta H. Arnold of Quitman and Lula M. Williams of Maryville.

DANGERS TO THE EYESIGHT

Accidents to Machinists and Stonecutters Might Be Avoided by Use of Glasses.

"I believe," said Dr. Myles Standish in his lecture at the Harvard Medical school, according to the Boston Transcript, "that it is a crime to have pointed scissors about in any household in which there are children under six years of age. Children will invariably play with scissors; they frequently fall on the points and puncture the eye, and often the wound, while it will cause blindness, is too small to be noticed by the mother."

"Next in point of danger to the eyesight is the pounding of steel on steel, which throwing out slivers, eventually destroys the sight. Machinists and stonecutters meet with similar accidents, and now that the public is paying for these injuries through insurance, workmen who are subjected to such dangers should be compelled to wear glasses of some sort to protect their eyes."

"I have known of quarrymen going on strike because their employer tried to force them to wear glasses, and I have seen a quarryman who has lost an eye through a premature explosion of dynamite go back to the same work and lose the other eye."

"Glaucoma," which occurs only in people over forty years of age, may be ranked as an accident, since it is in a moment of excitement or deep emotion that a person begins to go blind. There comes an instantaneous, agonizing pain in the eyes, which, if not attended to at once, will cause total blindness within a few days."

"The danger signal, which warns people that their eyes are becoming seriously affected by overwork, digestive or circulatory disturbances, is seeing a rainbow halo. This halo is visible often when the person affected strikes a match at night or looks at a street light."

WANTS

Classified ads running three days or more one-half cent per word for each insertion—minimum rate 25c for three days. Interrupted insertions 1 cent a word for each insertion.

WANTED—Girls to work in laundry. Maryville Steam Laundry. 2-t-f

TAKE THAT OLD lawn mower to the foundry. They will make it cut like a new one. 21-t
